Stay up to date with news, the school,  
your family and friends

## What we need to get your household online

Its important we have household details such as key contact names, a phone number, address, student names and school.

This allows our technicians to organise and to deliver the right connection.

*The process:*

**1.**

You will receive a call from EDOS to set up your connection

**2.**

EDOS will send a modem to your house with instructions for you to connect

**3.**

Your local fibre company will let you know when they have installed your connection line

**4.**

You are ready to go!  
Contact EDOS on  
0800 441 844 if you need further  
technical support

## Tech Support

Our experienced team is available for troubleshooting and any issues you may have with your connection. We're available during business hours to help make getting online simple and stress free.

Get in touch to find out more or for support when you need it.
